THE GOVERNOR'S MESSAGE.

To the Honorable, the General Assembly of the State of North Carolina:

By the Constitution of our State, the Governor is required "from time to time, to give to the General Assembly information of the affairs of the State, and recommend to their consideration such measures as he may deem expedient."

Before proceeding to the discharge of this duty imposed by the Constitution, it is meet and proper that in the name and in behalf of the people of the State, I should make due acknowledgements to the Supreme Ruler of the Universe for the many blessings and privileges he has bestowed upon us, and to invoke his continued guardianship over our State and Nation.

For the last six years, gentlemen, we have been struggling to repair and rebuild the fortunes of the State which were wasted and squandered in a most calamitous struggle with the General Government. It will answer no good or useful purpose to enter upon the causes which brought on this collision. Every one has his own opinion on this subject, and instead of endeavoring to open afresh the bleeding wounds, or to revive the memories of the sad past, it behooves us all to throw the mantle of oblivion over our differences, and devote our energies to raising up our beloved old commonwealth from the low estate into which she has fallen—to place her upon the proud eminence which she occupied prior to the events inaugurated in 1861, and brought to an end in 1865, by the triumph of the armies of the Federal Government.

However much many our wisest and best men may have believed, they were justified in resorting to hostile measures for the purpose of enforcing or defending rights which they deemed to be in jeopardy—yet it must now be apparent to every candid observer that the step was unwise in the extreme, bringing upon our State nothing but calamity, and reducing many of her people to bankruptcy and ruin. With this sad experience continually before our eyes—remembering the former grandeur of North Carolina—the happiness and prosperity of her people—the peace and good will which once reigned supreme in all her borders—the mutual forbearance and respect her citizens entertained one for another—with all these memories crowding our minds, may we now resolve that hereafter, whenever it is consistent with our honor and our good nome "to bear the ills we have, rather than fly to those that we know not of."

DEBT AND FINANCES.

The most important subject which will demand your attention at this session is the debt and finances of the State.

The report of the Public Treasurer exhibits the condition of the debt. An analysis of it will show that the debt consists of the following classes:

First: "Old," or "ante-war debt" including $383,045 held by the Board of Education which is in the form of a certificate issued in lieu of old bonds, $8,761,245
Accrued interest, 1,588,515
$10,349,760

Second: Bonds issued since the war under acts passed before, in aid of Internal Improvements, $3,015,000
Accrued interest, 542,700
$3,557,700

Third: Bonds issued since the war to fund accrued interest and past due bonds, viz:
Under act of 1866, $2,417,400
" " 1868, 1,721,400
Accrued interest, 744,984
$4,883,784

Fourth: Bonds issued during the war for Internal Improvement purposes, but not marketable, because of the time of issue, &c., viz:
Bonds issued under acts passed before the war, $913,000
Bonds issued under acts passed during the war, 215,000
Accrued interest, 383,550
$1,511,550

Fifth: Bonds issued under acts passed since the war for Internal Improvement purposes, *not special tax*, viz:
Under ordinance of Convention of 1868 to Chatham Railroad Co., $1,200,000
To Wilmington & Tarboro Railroad Company, 150,000
$1,350,000
Accrued interest, 234,000
$1,584,000

Sixth: Special Tax Bonds, issued under acts passed in 1868-'69, and since repealed by act of 8th of March, 1870, viz:
Bonds to Eastern Division of Western North Carolina Railroad Co., $273,000
Western Division of North Carolina Railroad Company, 6,367,000
Western Railroad Co., 1,320,000
Wilmington, Charlotte and Rutherford Railroad Company, 3,000,000
Williamston & Tarboro Railroad Company, 300,000
Atlantic, Tennessee & Ohio Railroad Company, 147,000
$11,407,000
Accrued interest, 1,475,670
$12,882,670

Seventh: Bonds pronounced unconstitutional by Supreme Court, viz:
Bonds issued to Chatham Railroad Company, now outstanding, $350,000
Penitentiary on Deep River, 100,000
$450,000

SUMMARY OF DEBT.

The principal of the entire debt is	$29,900,045
The total amount of accrued interest thereon to, October 1, 1871, is	4,987,419 45
Total amount of principal and interest is	$34,887,464 45

The only securities held by the State from which she derives any income, are the $300,000 stock in the North Carolina Railroad Company, on which six per cent dividends have lately been realized which dividends, by a decree of the Circuit Court of the United States, for the District of North Carolina, have been subjected to the payment of interest due on the bonds of the State issued to pay for said stock.

Commencing on the foregoing list, I remark that the first class, consisting of the ante war bonds, originally sold some over par, all averaging nearly par, the proceeds of which mainly built our railroads, seem to be of the highest dignity. The second class, although issued under acts passed before the war, it is notorious were sold at not more than fifty cents in specie, and not exceeding sixty-five or sixty-six cents in currency, when their depreciation was heavy. It is believed that many realized less than fifty cents in specie.

The bonds of the third class are also of undisputed validity. In fact, many were exchanged for old or ante war bonds which had become due, or for those which had become mutilated or scratched—the residue for coupons at par (without interest at maturity) which had become due mainly on the ante-war debt.

The fourth class the General Assembly has heretofore, except to a small amount, refused to recognize; but it seems difficult to prove that they have not been validated in general terms by the ordinance of the Convention of 1865-66, declaring all debts binding on the State when not incurred in aid of the rebellion. But if recognized they should be scaled according to the rate of depreciation at the date of issue, and of course they should not be recognized unless it shall be proved that their proceeds were applied to building our railroads.

The fifth class stand on the same footing as the second, but they were sold probably, at a lower average price.

The bonds of the sixth class were sold, nearly all of them, at ruinous rates—many bringing only from ten to thirty cents in currency; very many were sold under circumstances which ought to have put prudent men on their guard—sold in a reckless and gambling manner, so that it was plain to the most unwary, that the agent of the company to which they were issued was not acting with fidelity to the interests of his principal—besides many were disposed of after the General Assembly, by the act of January, 1870, gave notice to the world that they had ordered the return of said bonds, and that future sales of them would be invalid—and lastly a large number, according to a report made by a committee of the House of Representatives, were issued without the certificate required by law.

The seventh class, I am of opinion the State cannot recognize, but if she owns any property, purchased with the proceeds of these bonds, such property might be surrendered to *bona fide* purchasers of said bonds before their constitutionality was questioned—further than this in my opinion the General Assembly cannot go.

In considering the important and most difficult problem of the public debt, the following questions present themselves:

1st. What is the actual amount for which the State in equity and good conscience is liable?

2nd. This amount being ascertained, are the people of the State *able* to pay the annual interest on the same, regularly and promptly?

3d. If theoretically *able*, are they in their present condition of poverty and depression, willing to submit to the sacrifices required?

4th. Supposing that the people are either not *able* or not *willing* to pay the interest on the public debt for which they are justly liable, what shall be done? Shall we do nothing, or endeavor to effect an honorable settlement with the public creditor?

With regard to the first question as to the actual amount for which the State is justly liable; in my judgment this cannot be ascertained without investigation by able financiers and business men—men trained to weigh evidence, and of discernment sufficient to detect fraud.

As to the second question; I remark that the report of the Auditor shows that the people of the State are in such a state of depression that the total valuation of real and personal property will not exceed $121,000,000,00. The immense natural resources of the State are admitted, and if properly developed, the taxation necessary to pay the interest, on a much larger debt would be a light burden. The low valuation above stated shows that the annual profits from this property is small. To pay this interest and support the State and county governments, as well as to provide for the education of our children, to say nothing of the payment of old debts owing by counties and towns, which in many instances is being enforced by the courts, will be such a large per centage of the income of our people, that I am forced, reluctantly to conclude, that they cannot bear the necessary taxation without being deprived of their property, and in some cases of even the necessaries of life.

If I am correct in supposing that the people cannot now shoulder this taxation, it is unnecessary to inquire into the third question, as to their *willingness* to do so. Our people are generally honest. Repudiation *directly* is far from their thoughts. Any such action will be in the last degree painful and revolting to them Their evident unwillingness at this time, arises from their belief that they are unable to pay. Whether right or wrong in this opinion, they are honestly determined, I think, on this question. If I am correct in judging the public mind, then the public creditor has no means of enforcing the satisfaction of his debt by law. The State cannot be sued by him; but even if it were otherwise, all legal process against large communities, unanimous in resisting, would be vain. The experience of creditors of single counties in the North-west and elsewhere, shows that it is difficult and costly to recover satisfaction out of a single county in a State. If all the counties are in the same mind, and threatened with the same exactions, such recovery will be utterly impracticable. Officers could not be found to enforce the process of the courts, and even if enforced, the recovery would be valueless. Not only in America, but in despotic countries, the settled will of the people will always prevail against the theories and technicalities of law, however supported by precedent—just as in the late war we found the courts always deciding stay laws to be unconstitutional, yet the people, through the Legislature, in defiance of the courts, managed to stay the collection of debts.

The only remedy which the public creditor can possibly make available, as to the legality of which I express no opinion, is the enforcement, throug the courts, of the provisions of such charters of the various Railroad Companies in which the State owns stock as subjected the stock held by the State, and all divinends thereon to the payment of the principal and interest of the bonds issued for the benefit of such companies. In the case of the North Carolina Railroad Company, the Circuit Court of the United States for the District of North Carolina, has already decided to subject the dividends declared by the Company on the stock belonging to the State, to the payment of interest on the bonds of the State issued for the benefit of that corporation. It is said to be incontemplation to ask the court to order a sale of stock held by the State sufficient to re-imburse to the bondholders the dividends heretofore paid into the Public Treasury. I respectfully suggest to the General Assembly whether it is not proper to order a sale of all the stocks owned by the State, to be paid for in the securities for which such stocks were originally pledged. Such a course would reduce the debt of the State to a large extent and seems to be demanded by the terms of the contract with the public creditor.

The las question is, what shall be done with the public debt, supposing that the State cannot, or will not, pay the interest now, and will not give any assurance of paying the same within a reasonable time? Several schemes are suggested in this regard. Some say, "Let matters remain as they are—make no provision for paying interest—make no effort for a reasonable settlement—pass no act of partial repudiation—let the future take care of itself." If this plan be adopted, certainly interest will accumulate so rapidly that the very magnitude of the debt will lead to total repudiation eventually. I think this plan neither honest, nor manly, nor wise.

Another plan is to pay two per cent. interest the first year on the whole debt after the just and true amount shall have been ascertained; three per cent. the next year; four per cent, the third year; five per cent. in 1875 and so on in regular progression, so on in regular progression, so as to make an average of six per cent. in the whole. Such a scheme was adopted in Missouri since the war. This plan could not be successful or expedient, except in a State rapidly increasing in population and wealth. The annual payments would soon become so large that they would be intolerable, unless the taxable property should correspondingly increase. It is also liable to the objections that it is complicated and cumbrous, and that it is [illegible] uation on the supposed events of the future.

A third plan is to assure the public creditor that the State is at present unable to pay interest on its debt—that it acknowledges the binding force of the debt—that it desires to fulfill all its just obligations, and will do so at the earliest time possible; but that it is a matter of uncertainty when that time will arrive. The people can pay something at present, possibly they may be able to pay a larger proportion hereafter—whether they can or not is one of the uncertainties of the future. Hence according to this plan we may offer the following proposition: Let the State create a new debt, issue new bonds bearing three per cent. interest, payable in specie, with a tax imposed in the act, sufficient to raise funds to pay such interest—then make it optional with the bo d holders to exchange their old bonds for the new issue or await the chances of such improvement in the condition of the State as will secure to them payment of their claims in full. I suggest, without making any recommendation either pro or con, that it might be provided that in lieu of $1,000 bonds bearing three per cent. interest, $500 bonds bearing six per cent. interest might be given in exchange for each $1,000 bond held by him.

In my opinion the people can bear the burden of such a settlement, and those bondholders who do not think they have a specific lien on valuable stocks owned by the State (*e. g.*, those of the North Carolina Railroad Company,) would be willing to accept one proposal or the other. Of course it will be entirely optional with the creditor, whether he will accept either proposition, or await future developments. By pursuing this course the General Assembly would merely acknowledged frankly a palpable truth; they would offer the best, which in the judgment of many the people can do at present, and they would refrain from a repudiation of their contracts.

But whichever course the General Assembly may see fit to adopt, I think it absolutely essential that a commission shall be constituted, in whom the public have confidence, to ascertain and report all facts connected [illegible] the public debt, so that so

knowingly casting an illegal vote at any election, to punishment for at least two years in the State's prison and a deprivation of the right of suffrage for a term of years hereafter. The purity and inviolability of the ballot box must be preserved; and he who is so corrupt as wilfully to invade and prostitute it, should be made to know that he will be held to a strict and fearful accountability.

CONSTITUTIONAL AMENDMENTS.

The subject of amending the constitution has been agitated for some time before the people, and many well informed persons differ among themselves as to what amendments shall or ought to be made. I am free to confess, gentlemen, that I feel a very great reluctance to make any recommendations to you upon the subject, although my individual opinion is that the instrument may be very materially improved in some of its provisions. The question of calling a convention for the purpose of reviewing and amending it, has recently been before the people themselves, and by a large vote and in an emphatic manner they declared against amending it, at least in that way. It may be that they believed the clamor raised for a change of the organic law was dug more to legislation under the constitution than to any defects in the constitution itself, and that the greater portion of the grievances complained of might and should be removed or remodeled by wise and prudent legislation. In this opinion I heartily concur. The constitution is not to blame for the high salaries and fees paid to various state and county officers; neither is it censurable for the great length of time consumed by the present and preceding general assembly in enacting laws; nor can it be held responsible for the extravagant appropriations made for railroads and other works of improvement. There is nothing in said instrument which fixes salaries and fees, or prescribes the length of your sessions, or which directs the lavish appropriations of money. All this is done by persons chosen by the people themselves to be their law-makers, and upon these law makers, who have been faithless to the trusts confided to them, should be visited the condemnation of their constituents. They are the parties to be held responsible for a betrayal of the people's confidence. Unfaithful stewards, who have not improved the talents committed to their keeping, they should be reckoned as unprofitable servants and no longer worthy of public confidence. Then I entreat you to retrace any false step which may have been taken. Be diligent in the discharge of your legislative duties. Waste no time in useless legislation; go to work without necessary delay; enter at once upon the public business and bring your labors to a close at the earliest possible moment consistent with the public good.

I recommend the following amendments to the constitution:

First: Let section 2 of article II, be so amended that the general assembly shall meet biennially on the third Monday in Nov. instead of annually, and that it shall not remain in session for a longer time than 70 days, unless the seventieth day occurs on Saturday or Sunday, and in that case it may be prolonged to the seventy-first or seventy second day, and further that if it remain in session a longer time the members shall receive no pay after the seventy-second day.

Second: Let the fifth section of the same article be so amended as to abolish the provision for taking a census of the State in 1875, and every ten years thereafter.

Third: Let the 12th section of article IV be so amended as that a court shall be held in each county three times during each year, to continue one week, unless the business shall be sooner disposed of.

Fourth: Let the 4th section of article V be expunged from the Constitution, as it, in my opinion, is unnecessary, and is only a bone of contention for politicians to wrangle over.

Fifth: Let the 10th section of article XI be so amended as that those who are so poor as to be unable to provide for themselves shall be provided for at the expense of the State.

In my opinion the people will be content with the present Constitution if amended in the particulars above referred to, and I feel by no means confident that they desire all the amendments which I have enumerated. Each amendment proposed should be separately submitted to the people for their ratification or rejection.

SWAMP LANDS.

The Board of Education still has control of a large body of swamp lands which it is desirable to utilize as early as practicable. These lands have been for a generation practically withdrawn from market and from settlement, and although portions of them are undoubtedly of great fertility, they have remained, under the policy hitherto pursued, not only entirely valueless as a source of revenue for purposes of education, but a constant source of trouble and expense to the board, It seems better to realize even a small part of what they are actually worth, than to continue longer a policy which has been demonstrated to be an expensive failure. For in the first place the cause of education can never be in greater need than now of the funds which might be derived from their sale; and in the second place, it is more than probable that the amount which might be realized from them now, would, if simply placed at interest, exceed any sum they will probably bring hereafter, (just as the quarter of a million of dollars, which has already been expended on them, would by this time have amounted to a much larger sum than we shall ever be able to realize from them,) and in the third place is to be considered the indirect benefit to the state, both economically and educationally, of the developement of an immense amount of taxable values from the immediate utilization of such vast quantities of timber and of farming lands. It is plain that these lands can never be disposed of in small parcels to individual farmers, because they can only be drained successfully in large bodies; and if the board had in command a fund sufficient to drain them, the advisability of the policy would be more than doubtful; first, from the disastrous experience already so expensively acquired, and second from the reason of the thing, as it would necessitate the employment of a corps of surveyors and engineers and contractors for many years at the expense of a million or more of money, and then the establishment of a land office or agency or other cumbrous apparatus for the successful wielding of which the board is manifestly not properly organized or in any way qualified. So that the only course left seems to be to dispose of these lands in large bodies as fast as purchasers can be found who will pay a reasonable price and who will enter into obligations to settle upon and develope them.

GEOLOGICAL SURVEY.

The progress of the geological survey with its principal operations and results will be presented to you in the report of the State geologist shortly to be submitted. The wisdom of the legislature in establishing and sustaining this important work is abundantly justified by the result already manifested to the increasing interest both of our own people and of others, in the varied resources of the State; in its minerals, soils, marls, peats and forests, and in the movements already inaugurated for the developement of these interests. The attention of capitalists and manufacturers has been effectively attracted to the superior quality and immense quantity of our iron ores, in which large investments have recently been made with a view to their development on a large and permanent scale, and at the same time operations have been resumed in the coal deposits of Deep and Dan rivers, and the re-opening of a number of copper mines; and the works now for the first time undertaken, indicate a better prospect than ever before of the profitable and permanent working of all the best mines of this metal in the state. And there are evident indications of increasing activity in other directions.

But the paramount importance of the survey is perhaps most conspicuous in its bearings upon the improvement of our agricultural interests, and its obvious and essential instrumentality in the establishment of this leading industry upon a better and more scientific basis, through the diffusion of a knowledge of the qualities and adaptation of our various soils and climates, and of the means and methods of fertilization.

You will find in the growing collections of the State Museum the palpable and impressive exposition of the utility and progress of this department; and for the zeal and untiring energy and industry of Professor Kerr, our State Geologist, I desire, as it is both my pleasure and duty to do, to commend him to the favorable consideration of your honorable body.

IMMIGRATION.

The State of North Carolina has such superior advantages, in point of geographical location; in climate and soil; in the variety of its products; in its freedom from the extreme rigors of the North and from the enervating heat of the South; extending more than five hundred miles from the sea shore and nearly two hundred miles in width; embracing nearly every variety of soil and production as to render her one of the most inviting fields for immigration, that can be presented to those who are in search of permanent homes for themselves and their posterity. All these beneficent gifts of Providence are offered to those who may settle within our borders; and no people under the sun are more blest with every requisite to make a great and prosperous State than are the people of North Carolina.

Our mineral wealth is only equalled by our agricultural products. The coal and iron of the Deep and Dan rivers, capable of affording profitable employment to thousands of operatives, do not exceed in richness the gold, the copper, the silver, the lead, and marble to be found in our more *Western* territory. Lime and marl also abound in various counties of the State, both East and West. Shall we neglect or discard the means of utilizing what is placed within our reach or shall we devote our energies to realize for ourselves and our children a name and a rank among the foremost and most prosperous States of this *great Union?* Let not those who are to come after us say that "our fathers had opportunitiee to secure for themselves and for us some of the wealth, and population and advantages which enrich the fair fields of the great northwestern States but failed to avail themselves of them. That teeming thousands might have been enticed to our State in the years that are past, but no vigorous or well-directed effort was made by our ancestors to induce them to come and now they are lost to us forever." Let not these things be said of us; but let us re resolve to develop the boundless resources of our State and make North Carolina a brilliant gem in the galaxy of the great States which compose our glorious Union.

What we most need is capital. Our condition will for a long time remain as it is, unless we send words of encouragement, cordial in their wildest sense, to those abroad, and invite them to come, assuring them that we wish them to make their homes in our midst—that our laws shall protect them, and that no invidious distinction shall be made to their social or political prejudice.

The Northern and Northwestern States are straining every nerve and making every exertion to allure to their borders every immigrant who comes to the United States. The most tempting offers are made to induce them to make their homes in the far West. Free gifts of land, and free transportation are constantly tempting the masses to follow in the wake of those who have preceded them and the result is that thousands of good men are flocking to those States while very few comparatively speaking are taking up their abode in North Carolina.

At the last session of the General Assembly the office of Commissioner of Immigration was established, and a gentleman well qualified for the position was elected to fill it. His duties were not defined, nor is he required to make a report of his operations. I have learned that his efforts to induce immigration to our State, considering the small means at his command, have met with considerable success. Under the act of Assembly, assistant commissioners have been appointed in England, Scotland, France and Germany, by means of whom a foundation has been laid upon which to build up good results for our State. The Commissioner, with the aid which he has received from his assistant Commissioner in England, has succeeded in establishing a line of steamers from Liverpool to Norfolk, where an office has been established to receive and forward immigrants coming to our State.

I would respectfully suggest that the duties of the Commissioner be more particularly defined, and that he be allowed a reasonable compensation for his services. Whatever legislation upon this important subject you may, in your wisdom, deem necessary to increase the prosperity and develop the resources of the State, it will be my pleasure to see faithfully executed.

THE STATE AGRICULTURAL SOCIETY.

I desire to call your attention to the development of the Agricultural, Mechanical and other industrial interests of the State, especially to the Agricultural, as the foundation of all the wealth and prosperity of our land, should your protecting care be directed. To effect this great object the North Carolina Agricultural Society, and all of the societies of a similar nature, should be encouraged and fostered in every practicable manner. Certainly the most beneficial results are attained by collecting at the Annual Fairs specimens of the industry and wealth of every section, and exhibitions of the most improved implements and machinery. Our people can thus become acquainted with the processes and ideas of the most advanced in their respective departments of labor. They are thus enabled to throw off the lethargy and inertia so liable to be contracted by those residing constantly at a distance from the centres of population and wealth.

At the close of the late war, our Agricultural Society was prostrate. Its grounds had been for years occupied as a camp or hospital, successively, by the armies of the late Confederacy and of the Union. The officers of the society have, with commendable zeal, mainly by the collection of funds from the citizens of Raleigh, aided by small contributions from the State, been able to inaugurate Fairs which have given great gratification and instruction to large numbers of our citizens. It seems to me that it would be best for every Agricultural Society in the State to be represented in the State Agricultural Society. Instead of having separate, isolated institutions, let us have a regular organization—each county or district society sending delegates to the State Institution; taking part in its deliberations; contributing to its exhibitions; aiding in its success and thereby showing, by regular system and organized action, the best products of the State, its capabilities and resources. There should be no disposition to regard the Society as merely local—as belonging to Raleigh or to the central portion of the State. We ought to have pride in displaying to the world a fair sample of the productions of every county. This can only be done by harmonious co-operation by all local organizations with one single central institution, easy of access to the inhabitants of the East and West, the North and South. The best results would flow from the generous rivalry of different sections, and the spirit and enterprise aroused by this emulation would stimulate all district and county organizations to greater exertions and to more abundant success.

INSANE ASYLUM.

The annual report of Dr. Eugene Grissom, the worthy Superintendent of the Insane Asylum, shows in detail the operations of the Institution for the last official year. Its affairs have been managed with marked ability and success. There are evidences in every department that vigorous measures have been adopted for the care and comfort of the patients, and for the improvement of the buildings and premises, and for bringing the grounds and farm into a higher and better state of cultivation and preservation. The finances appear to have been prudently and economically managed, and the expenses of the fiscal year ending on the 31st of December will not exceed the appropriation.

The Institution is filled to its utmost capacity with the unfortunates of our race, and there are now about two hundred and fifty applications for admission on file which cannot be favorably responded to for want of room. The advantage of early treatment in cases of insanity is universally conceded, and it is a sacred duty we owe to the afflicted, to their families and to society, to provide facilities for their care and cure; many of these unfortunates are under constant restraint in different parts of the State—some of them manacled at home, while others are confined in loathsome dungeons of common jails, thus placing misfortune on a par with crime. Considering the necessity for greater accommodations for the insane; the great distance that many of them have to be transported at a heavy expense in order to reach the Asylum at Raleigh, and the amount of money appropriated by law for the support and maintenance of such as must necessarily be kept at home, I submit to the General Assembly if it would not be more economical and much more convenient to erect another Asylum in the Western portion of the State, either at Morganton, Marion or Asheville. This ought speedily be done or additional accommodations must be made at the present Asylum, or a very great number of insane persons will be left unprovided for or thrown upon the cold charity of the world.

Before dismissing this subject it is my agreeable duty to commend to your kind consideration the most excellent Superintendent and his able corps of assistants and employees for the faithful and satisfactory manner in which they have discharged their arduous and responsible duties.

THE DEAF AND DUMB AND THE BLIND.

The Institution for the Deaf and Dumb and the Blind has, according to my information, been well managed, and its affairs economically and satisfactorily administered. For a detailed account of which, I refer you to the report of the Principal, and commend such suggestions as he makes for its further improvement and usefulness to your favorable consideration.

PENITENTIARY.

The work on the State's prison is progressing as rapidly as the limited means at the disposal of the Directors will justify, and great credit is due to the contractors for the faithful manner in which they are performing their obligations. I am not sufficiently familiar with all the minutiæ of the work as to give you an intelligent statement of its progress, or to say when it will be ready for the reception of convicts. For this information, and for its past management and present condition, I refer you to the Report of the Board of Directors, which no doubt gives a satisfactory account of their Stewardship, and of the work committed to their care and supervision.

PARDONS, COMMUTATIONS, &C.

In connection with the subject of the Penitentiary, I desire to call your attention to the accompanying statement (marked A,) showing the number of pardons, reprieves and commutations of punishment which have been granted during the time I have exercised the functions of Chief Executive of the State, together with the reasons which moved me to the exercise of such clemency.

MILITIA.

The Constitution declares that a well regulated militia is necessary to the security of a free State. If this be true then it is also true that North Carolina is not secure in the sense contemplated by the Constitution; for it is a well known fact that our militia is not well regulated, neither can it be under the laws now in force. I do not deem it necessary or proper for one so inexperienced in military matters as I confess myself to be, to make any suggestions to your honorable body as to the amendments necessary to be made in the law relating to the militia. This work I commit to your superior knowledge and judgment inviting your attention to the report of the Adjutant General which is herewith submitted. And in this connection I desire to call attention to the inadequacy of the salary of this important officer, whose duties are arduous and whose responsibilities are so great.

INSURANCE COMPANIES.

By invitation of the National Insurance Convention of the United States lately in session in the city of New York, I appointed Wm. H. Finch, Esq., as special agent to represent North Carolina in that body. There is no law requiring or authorizing the appointment of such an agent and it was done only as an act of courtesy to a highly respectable body asking it to be done. The State incurred no expense whatever by reason of this appointment. Mr. Finch has made a very interesting report of the proceedings of the Convention which is herewith transmitted to you and from which you will be enabled to gather useful information, if you shall desire to legislate with regard to the operations of Insurance Companies in North Carolina.

RESIGNATIONS, APPOINTMENTS, &C.

Hon. Thomas Settle, Associate Justice of the Supreme Court, resigned that position on the 31st of March last. I immediately appointed Hon. S. F. Phillips to fill the vacancy. He declined on the 5th day of April to accept the appointment. The place was then tendered to Hon. Nathaniel Boyden, who accepted and entered upon the discharge of the duties of the office on the 3d day of May.

Hon. E. W. Jones, Judge of the Second Judicial, resigned on the 1st day of April, 1871. Hon. William A. Moore was appointed to succeed him, and accepted on the 24th of April.

On the second day of May, I was notified of the death of Jacob Siler, Esq., Agent of the State for the collection of Cherokee bonds. E. P. Kincaid, Esq., of the county of Cherokee, was appointed to fill the vacancy. He declined, and on the 24th of August, a commission was sent to Wm. Beal, Esq., of the same county, who has neither accepted no declined the position.

The business and responsibilities of this office having materially decreased since the amount of the bond was fixed by law, I respectfully recommend that the bond of the Agent be correspondingly reduced.

George Z. French, Esq., a member of the House of Rrepresentatives from the county of New Hanover, tendered his resignation as such on the 1st of July. His resignation was accepted, and an election to fill the vacancy ordered for the 3rd of August.

S. F. Tomlinson, Esq., a member of the House of Representatives from the county of Randolph, (having been elected Principal of the Institution for the Deaf and Dumb and the Blind), resigned on the 3rd of July, and an election to fill the vacancy was ordered to be held on the 3rd of August.

Gen. A. W. Fisher tendered his resignation as Adjutant General early in August, and Gen. John C. Gorman, of Wake Co., was appointed and commissioned in his stead.

Rev. S. S. Ashley resigned the office of Superintendent of Public Instruction on the 30ih of September, whereupon Professor Alexander McIver was appointed and commissioned to fill the vacancy, and immediately entered upon the discharge of the duties of the office.

J. H. Hill, Esq., a member of the House of Representatives from the county of Iredell, resigned on the 7th of October, and an election to fill the vacancy ordered to be held on the 16th of November.

R. S. Ledbetter, Esq., Senator from the 28th District, resigned on the 11th of October and an election to fill the vacancy was ordered to be held on the 16th of November.

EXECUTIVE MANSION.

By virtue of authority vested in me by the present General Assembly at its last session, I caused the Executive Mansion to be rented out at public auction on the 6th day of May last, for the residue of the year. The price for which it rented is $405, secured by note, which fell due on the first day of the present month.

REPORTS.

Accompanying this communication will be found reports from State officers and the Principals of Charitable Institutions, &c., which are particularly commended to your attention.

CONCLUSION.

And now, gentlemen, having discharged my duty in an imperfect but sincere and candid manner, I again commend you and your labors to the wise superintendence and oversight of the Great Law Maker of the Universe, with the assurance that it will always afford me pleasure to co-operate with your honorable body in every effort to build up and establish the fame and prosperity of our beloved State.

RUTHERFORDTON, N. C.

SATURDAY, DECEMBER 23, 1871.

☞ As sentinels on the watch-tour of liberty, we feel it our duty to keep before the people the status of the country, that their *liberties* may be preserved.

Disclosures are still being made as to members of the "Invisible Empire," the organization established by the Democratic Conservative Kuklux party, to ruin the country and destroy freemens' rights; and, notwithstanding, sufficient developments have already been made to satisfy any reasonable man not only of the diabolical purposes of the organization, but that the *whole thing will out*; still the *leaders* are trying to keep their rank and file together for future operations. The question presents itself to those duped into the organization with much force, what ought they to do for *their own* preservation? The answer is plain and simple—Repent, follow false gods no more!

A community is made up of people, and an injury to a community operates upon each and every one composing it—hence it is, that a country can not prosper when treason is broadcast in the land, for it breeds disorder, disobedience to law, *violence and bloodshed*. Such persons universally claim to themselves pre-eminence, as the Kuklux party does now, by saying *they* are the "wealth and intelligence of the country," and in addition, abusing and slandering every one who disagrees with them. Truth is mighty, and will prevail. An honest man is the noblest work of God! Let the people determine to cast off liars and perjurers, and give honor to whom honor is due, respect those only who are pure and patriotic, and the time we hope will yet come when peace and prosperity will reign over our wicked and perverse country.

Members of the "Invisible Empire," called leading members of society, should know that there is none so high but he may fall, and the greater the fall the greater the injury, therefore it is extremely doubtful whether they can ever attain, in the eyes of honest and truthful men, the position they once held in society. If they choose, let *them* ostracise honest men; let *them* draw the line; they will stand in their own *ruin*, and it will be easily known who they are.

PUBLISHED EVERY SATURDAY.

MR. A. K. HENRY, Room 21, Law Building, Richmond, Va., is authorised to receive subscriptions and advertising at our lowest cash rates.

☞ We give, in this week's issue, the entire Message of Gov. Caldwell, which will account for the omission of articles that otherwise would have appeared.

☞ More new goods received at the Post Office.

—The editors of the *Star*, are gone for that *Hat*.

☞ Wallace & Scoggin keep good goods at the Post Office.

—Winter made its appearance yesterday clothed in its mantle of purest white.

☞ The man who buys goods at the Post Office, will get bargains.

—Hog drovers are passing our town daily with large droves of hogs.

☞ If you do not believe that you can buy goods cheap, call at the Post Office?

—If you want to live happily, subscribe for the *Star*—and pay for it.

..We understand that the Minstrel Troupe in this place, have received their Musical Instruments.

..The new county movement is gaining friends. All right, get up your petitions.

—Santa Claus is mending his harness to go round to see little children, where their parents take the *Star*.

—*The New North State*, has made its appearance, and is well gotten up, and has the *tingle* of pure metal. *Success to you, Joe.*

..The *Era* says: Papers have been fixed up, and messengers have gone after "more of the crowd" that mobbed and maltreated Mr. Justice.

..*They* say there are thirteen practicing physicians in Raleigh. *They* ought to know.

..The *Era* says the Biblical *Recorder* appears in a new dress and new proportions, and says the "Coming Man" is woman.

..We understand that a confession has been made implicating some of the best citizens of this town in Ku Kluxing. We are sorry.

—From the absentees around Rutherfordton, you might readily suppose that Raleigh had the properties of the maguet.

—Many thanks for the nice Thanksgiving dinner sent us, and we assure the kind donor that it was highly enjoyed.

..Wonder if those parties who expect to marry soon, intend to remember the printer. We will take for marriage notices, anything to eat or wear. Just send it in.

—From the number of Spareribs that are floating around, we think it must be hog killing time. Many thanks to those who remembered us.

..The young folks that went O'possom hunting the other night, returned somewhere in the small hours, and say it was a fine large night for cats!!

..We will thank any one indebted to the *Star* to call and pay, as both the editors are absent, and we are authorised to receipt for subscriptions.

—If you would like to hear from the Legislature or Federal Court, now going on in Raleigh, subscribe for the *Star*. Terms, $1.50 per annum in advance.

..The editors write us that Flemming fed them well at Marion. We are glad to hear they stopped at a good house. Ah! what a *treat* for an editor to get away from home.

..The weather has been quite changeable of late. On last Monday it was so warm that we could dispense with a fire, and on Thursday, Thanksgiving day, it was very cold, and we had our first fall of snow in this place.

—Died, in Shelby, Nov. 23rd the wife of Mr. Henry C. Davis. Her remains were brought to this place for interment. The bereaved husband receives our deepest sympathy.

..The roads are getting very bad, the Senior writes us that he could scarcely travel to Marion, and wonders if they have any overseers on that road.

..The man that spread himself out in front of the court house to dry, says "it was the first time he was ever tight." We can assure him that it was a success, and if he holds out faithful, he will ere long make a good hand at the business.

—The man of whom the brandy was seized, by the Revenue Official, begs leave to state that it was not "purchased at a reduced price" as "Once in Awhile" has it in his "Warning to Blockade Runners!!"

IMPORTANT TO NEXT OF KIN.—If Isabella White, whose maiden name was Bridges, or the next of Kin, will call on the undersigned they can probably hear of something to her, or their advantage.

..There was a great deal said in the *Patriot* of last week about the brilliant wedding of a lovely and accomplished lady in Danville. The names of the honored guests were mentioned, but the name of the happy bridegroom was not told. We think it rather strange and that it is doing him an injustice.

MASONIC CONTRIBUTION SUPPER.—The Masonic Fraternity intend having a supper on the 27th inst. It is to be gotten up by contribution. Brethren in the country can assist us greatly by sending in some of their good things, such as chicken *fixins* and flour *doins*. Any one wishing information can get it by calling on Capt. I. H. Huffmaster.

FOR HOUSE CLEANING, washing dishes, floors, oil cloths, tables, cleaning windows, paint, knives and polishing tin, brass and all metals, use Enoch Morgan's Sons' Sapolio. It is cheaper and better than soap. Get it from your grocer, or at 211 Washington street, N. Y. 2-4w.

FOUR EVILS.—Whoever habitally uses any alcoholic preparations as an "appetizer" will be likely to suffer from four evils, viz.: an overplus of food in the stomach, impaired ability to digest it, the pangs of dyspepsia, and a doctor's bill. Dr. WALKER'S VEGETABLE VINEGAR BITTERS, the great Teetotal Restorative of the age, without over stimulating the palate or irritating the stomach, imparts a healthful appetite, promotes digestion, regulates the liver and bowels, purifies the blood, and thus, instead of entailing four evils, confers four inestimable benefits.

☞ THE ILLUSTRATED, PHRENOLOGICAL JOURNAL, is in every respect a First-Class Magazine. Its articles are of the highest interest to all. It teaches what we are and how to make the most of ourselves. The information it contains on the Laws of Life and Health, is well worth the price of the Magazine to every Family. It is published at $3.00 a year. By a special arrangement we are enabled to offer the "Phrenological Journal" as a Premium for ten new subscribers to the STAR, with the cash—$15.00, or will furnish the "Phrenological Journal" and STAR together for $3.25. We commend the Journal to all who want a good Magazine. Address all orders to Publishers of the STAR, Rutherfordton, N. C.

A Down East paper alluded to an eminent citizen as "a noble old burgher, proudly loving his native State;" which neat little compliment came from the compositor's hand reading, "a nobby, old burglar prowling arouud in a naked state."

The cholera cases in Nova Scotia nearly all prove fatal.

A WARNING TO BLOCKADE RUNNERS.—It seems that our vigilant Revenue Collector was not wholly satisfied with his work of the previous week, of breaking up of three distilleries and fixtures, some 30 stands of Beer, and arresting some of the parties concerned and bringing them to trial, for we learn by home advices that one of our neighbors was pretty badly taken in by the same U. S. Official, in the sum of Fifty Dollars, or more. It seems that said person, (the name we do not wish to disclose) had been to the mountains for a fresh supply of the beverage, and after obtaining the desired article at reduced prices, and having nearly completed the tedious journey, had the misfortune to halt by the roadside for a few moment's recreation, when up rode the lynx eyed collector, and requested to be informed of the contents of the suspicious looking vehicle; the proprietor not being near at hand, he turned to a little boy, and asked him the question: "What have you in the wagon?" the boy of course not knowing the danger of a truthful answer said "Brandy," then the Inspection commenced, and in less time than it takes to describe, it was ascertained that the barrel was minus the requirements; it was of course confiscated, and the team also, and the last seen of the driver, he was stampeding through the streets, saying he was "broken up." Truly the way of the transgressor is hard, and those that are not willing to be content with small gains, and abide by the Law, must abide by the consequences.

SUPERIOR COURT—In Vacation.

James M. Justice, Plaintiff, against L. A. Mills, Jr., G. W. Trout, Jr., Wm. Webster, Charles C. Webster and others. — Original Attachment.

William Webster, Charles C. Webster and George W. Trout, Jr., defendants above named, you are hereby notified that in a case for damages brought by the above named plaintiffs, and against the above named defendants and others, for the sum of fifty thousand dollars, a warrant of attachment has been levied on one hundred and forty-seven acres of land, the same being part of the James A. Webster old tract, joining the lands of James Kenady and others, the property of Wm. Webster.

One hundred and fifty-three acres of land, being a part of the same tract as above, adjoining lands of James Kenady and others, the property of Charles C. Webster.

George W. Trout, Jr., interest in six hundred acres of land, more or less, the tract of land on which George Trout now lives. Said attachment is made returnable to the Superior Court of Rutherford county, at the court house in Rutherfordton on the 4th Monday in March next, when and where you are notified to appear, plead, answer or demur to plaintiff's complaint, filed in the office of the clerk of the Superior Court for said county, or judgment *pro confesso* will be taken as to them, and the lands condemned and ordered to be sold.

Witness: J. B. Carpenter, clerk of the Superior Court for Rutherford county, at office in Rutherfordton 28th October, 1871.

finite conclusion may be reached by the Legislature as to the true, legal, equitable liabilities of the State. This commission should likewise ascertain from the creditors their views as to what final and honorable settlement can be made of their claims. Considering the enormous losses of the State, in able bodied men slain or disabled—in the sudden overturning of the system of labor—in the destruction of property—in the insolvency of all its banks, and the loss of their circulating medium—in the ruin of crops by various causes—in the want of good faith of some of her agents, and in fine in the countless losses and disasters of a people conquered after a long and desperate war, the creditors ought to be reasonable and willing to compromise; and certainly it is not unmanly in our people frankly to confess the facts of their condition—the results of their fruitless struggle.

The above observations are made, because I feel painfully anxious on account of the condition of our public debt. Repudiation of our contracts in any shape, would leave such a stain on our conscience and our honor, would bring such disgrace and, directly and indirectly, inflict such an injury on our people, collectively and individually, that I have felt it my duty to state all the difficulties of the financial situation with the utmost frankness in order to show the necessity for prompt action. Let us ascertain the full extent of our obligations, and then manfully address ourselves to the task of fulfilling them in the most practicable manner which will commend itself to the wisdom, and good sense, and integrity of the people of the State. If the General Assembly shall see fit to authorize the appointment of a commission as above suggested, it may be advisable to defer maturing any financial plan until their report shall be presented—and perhaps by that time such renewed prosperity may, in the Providence of God, be vouchsafed to us as will demonstrate our ability to meet all just demands, and infuse into our people the disposition to bring back to North Carolina her ancient, proud financial reputation.

CONDITION OF SOCIETY.

It is a matter of unfeigned regret to me to feel obliged to call the attention of the general assembly to the disorganized condition of society in our state. I shall not consume your time by entering into a detailed statement of the extravagancies and crimes which have been committed in various localities within our borders. They are fresh in the recollection of all. Their commission has brought reproach upon our people, and the material interests of the state have been most seriously and injuriously affected by them. The tide of immigration which at one time seemed to be setting towards our shores has been driven back, and thousands of persons, with millions of capital, have been deterred from settling among us by the tales of horror which have reached their ears as occurring almost daily in some portions of the state.

It behooves you, gentlemen, to take this matter into your serious consideration, and to devise measures and enact such salutary laws as will restore peace and good feeling among our people, and deter evil disposed persons from taking the law into their own hands and becoming the executioners of unauthorized judgments. Until this be done and the civil law is made to reign supreme in the state, and its ministers are respected, and their hands upheld and strengthened, there will be no peace, prosperity or real happiness among our people. What greater good, then, can you accomplish than to strive by wise and prudent legislation, divesting yourselves of all party prejudices, to put down and utterly extinguish all unlawful combinations, by visiting upon offenders such a measure and such a certainty of punishment as will deter them from further prosecuting their nefarious purposes, and give to the law-abiding class of our people assurances of protection in the enjoyment of their liberties and rights both of person and property? Do this, and in a very short time immigration will begin to flow to our state; our waste places will be built up; our soil will grow with the rich products of the earth; our deserts will be converted into gardens, and our whole people will dwell together in such unity as becomes a civilized and christian community.

EDUCATION.

I desire, gentlemen, in an especial manner to call your attention to the educational interests of our state. No people can be prosperous or happy who are bound in the chains of ignorance, and who have not facilities, for bursting as under the fetters which dwarf their minds and cripple all the nobler faculties of their nature. It may be said that North Carolina is too poor to do more than she is now doing for the cause of education. It may be imprudent at this time to place additional burdens on the people in behalf of our University or any of the colleges or high schools in our midst; but we are far behind the people in the cause of common schools. It is much better that *all* shall receive the rudiments of a good English education, be taught to read fluently, write legibly and understand the use of figures, than that a *few* shall be educated in the higher branches of polite literature, imbued with a knowledge of the dead languages, and made proficients in the higher branches of art and science. The one is absolutely needed to make our men and women good and useful citizens; while the other may be dispensed with until a new era of prosperity shall dawn upon us and enable us to rebuild and rehabitate the University, and establish throughout our borders colleges and schools of high grade and character. Go to work then, gentlemen, and resolve that every child in the State shall be taught to read and write—that those who are not able to educate themselves shall be educated by the state—that in the next decade every person between the ages of ten and twenty years, who is of sound mind, shall be able to read the word of God and the constitution and laws of the country. Fear not to levy tribute for this glorious cause. It will be like bread cast upon the waters: "Thou shalt find it after many days."

THE UNIVERSITY.

With regard to the University of the State, a principal obstruction to its success is its pecuniary embarrassments, for which, as far as I can judge, the present board of trustees are in no wise responsible. The principal debt, amounting to about sixty thousand dollars, was incurred, and a mortgage made to secure the same before they came into office. In 1868 the patronage of the institution had been reduced to less than one hundred students. Prior to this time, however, the principal portion of its endowments had been lost by unfortunate investments. Until the institution is relieved from debt, and its property from incumberance, there can be but little hope of its success or usefulness. In my opinion an honest and faithful effort was made to lift the University from the condition in which it was found at the close of the late war. This met little or no favor from the class of persons by whom it was crushed. They have not aided the officers in their efforts to build it up. Public opinion has been moulded against it by the most unscrupulous misrepresentations, and by violent appeals through a partizan press. Those who would have patronized it were threatened with social ostracism. The young were deterred from entering its halls, and parents very naturally hesitated to compel the attendance of their sons; and now the case of failure is imputed by some to the trustees and faculty. The remoteness of Chapel Hill from the railroad is believed by many to be in the way of its prosperity. It is more difficult of access than other colleges, but this is a matter of minor importance.

The foregoing are some of the difficulties with which the University has had to contend. Just prior to the late election, a spirited controversy began in some of the religious newspapers, in which it was proposed to abolish the University. This I imagine was in view of the calling of a convention. Those who have since pursued the controversy seem to have done so without adverting to the change in the situation.

The constitution of the state not only contemplates the continuance of the University, but actually prescribes rules for its management. The corporation cannot be dissolved while the present constitution stands. It has been suggested that the trustees should sell so much of the property as is situated at Chapel Hill and purchase a more eligible location elsewhere. From such a sale, at this time, the trustees would probably not realize half the actual value of the property, and it could result in no more, if as much, as the bare payment of the debts and leave the board without the means of future operations. I cannot believe that such a proposition will meet with any favor in any quarter at the present time.

Under all these circumstances I recommend the legislature to adopt such measures as in its wisdom will secure the interests of the state from a great loss, and prevent the property of the University from a forced sale for the payment of the debts. Then close the doors of the institution until more prosperous times. In the meantime give to the superintendent of public instruction power and authority to take all property into his possession, and make such a disposition of it by lease from year to year, as to him shall seem most conducive to the interests of the University and the state—requiring from the lease a bond with ample security for the safe keeping and good care of said property, and also for the annual payment of the rents until the expiration of the lease.

SUFFRAGE.

The greatest bulwark of civil liberty, and the one best calculated to promote and make perpetual the freedom of the citizen is the right of suffrage. The sovereign people are the rightful custodians of power in all well regulated governments. Upon them fall all the burdens of keeping the machinery of state in running order. They furnish the means to build up your schools and colleges; to make your railroads and canals, to erect your asylums and charitable institutions; to sustain your ministers of law; to repress domestic violence and to defend our country against invasion from a foreign foe. For these services they ask nothing in return, but the right to choose their agents of government, and their representatives in the nation and state, and the enactment of such laws as will protect them in the enjoyment of all the rights and privileges accorded to them by the constitution and laws of their common country. While the people have the privilege to select their own law-makers without let or hindrance—while they feel free to march up to the ballot box and vote according to the dictates of their own better judgments, while they have ample and unrestricted opportunities to exercise this inestimable right, there need be no fear for the perpetuity of our republic. Then, gentlemen, it is your imperative duty to make the ballot box as accessible to the people as it is possible to make it. Throw no obstructions in the way of a free ballot to those who are entitled to vote Let the poorest and humblest individual in our state feel that he is as welcome at the pools as is the richest and mightiest man in the land. Cause him to feel that if he is made to bear the heat and burden of the day in time of danger, when the sons of our soil are called upon to defend our rights on the battle field, so in time of peace he is welcome to all the immunities, privileges and franchises which his valor secured. I therefore warn you not to place the ballot box beyond the reach of any of our people who are rightfully entitled to approach it. Throw no troublesome obstacles in their way. Give them no just cause to complain of opposition, injustice or a withholding of any of their rights, but aid and encourage them in all their efforts to discharge their duties as becomes freemen. In order to accomplish this end I think it necessary to amend the law now in force, so that the elector may have the right to deposit his ballot at any election precinct in his county. There is no good reason why he shall be restricted to the township in which he resides. It often happens, under our present system, that a voter is forced to travel a much greater distance to reach a polling place in his own township than he would be to one in an adjoining township. I am also of opinion that registration ought not to be allowed on the day of election, and that no voter should be challenged except at the time of registration, and it should be the sworn duty of every registrar to challenge every one who applies to be enrolled as voter, unless he knows of his own knowledge that he is legally entitled to be enrolled. Many persons have been prevented from exercising the right of suffrage by reason of evil minded persons challenging their right on frivulous grounds, so as to consume the time within which the polls are to be kept open. This evil should be remodeled, and I know of no other way in which it can be done unless it be by extending the time of voting throughout two days instead of one. The law should also provide that a voter may deposit all his ballots in the same box instead of requiring a multiplicity of boxes to receive the various ballots for the different officers to be voted for. It is a notorious and lamentable fact that a large number of the electors in North Carolina of both colors, are uneducated and not able to read, and under the present system of voting, where persons are required to vote by ballot, and to have a separate ballot for every person voted for, many of the tickets necessarily find their way into the wrong box and are discarded as blanks, and thus the voter is by law cheated out of his choice. I take it for granted that every law-maker is not only willing, but is desirous, that every man, entitled to vote shall exercise the privilege, and shall have every facility for exercising it, and that it will be the aim of this general assembly to amend the law upon this subject so that the evils and difficulties above enumerated may be remedied and avoided. It may be said that the frauds will be perpetrated more readily if persons are permitted to vote in townships other than the ones in which they reside. In reply to this objection, it is only necessary to refer to the former method of voting in North Carolina, under which there were few frauds perpetrated, and seldom a complaint made. And now, with the additional safeguard of registration, it will be almost impossible for any one not qualified to avoid detection in an attempt to vote illegally. If, however, any one shall succeed in eluding the vigilance of the poll-holders and vote when he has no legal right to do so, then let the severest penalties of the law be visited upon the offender; and in order to deter every one from the commission of this offence, I recommend the General Assembly to subject any one convicted of willfully and

The Great Medical Discovery!
Dr. WALKER'S CALIFORNIA
VINEGAR BITTERS,

Hundreds of Thousands
Bear testimony to their wonderful Curative Effects.

WHAT ARE THEY?

They are a Gentle Purgative as well as Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

For Female Complaints, whether in young or old, married or single, at the dawn of womanhood or the turn of life, these Bitters have no equal; are safe and reliable in all forms of disease.

THEY ARE NOT A VILE
FANCY DRINK,
made of Poor Rum, Whiskey, Proof Spirits, and Refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics" "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters, according to directions, and remain long unwell.

$100 will be given for an incurable case, providing the bones are not destroyed by mineral poisons or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism, and Gout, Dyspepsia, or Indigestion, Bilious, Remittent, and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

They invigorate the stomach, and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, which are the offspring of Dyspepsia, are cured by these Bitters.

Clean the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins. Keep the blood pure and the health of the system will follow.

TIN TAPE, and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed.

For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French, and Spanish.
